> "I really liked the face-to-face Speaking test. It feels more natural and you can see the expression of the examiner, just like when you speak to people every day."

Still the same trusted IELTS test

IELTS is the world's most popular high-stakes English language test for study, work and migration purposes.

IELTS assesses your abilities in listening, reading, writing and speaking – in less than three hours.

Whether you take IELTS on paper or computer, you can be confident that you are taking the same trusted English language test, with no differences in:

- Content
- Test timings*
- Structure
- Marking
- Question types
- Security
- Speaking test
- Test Report Form

"I really wanted my results quicker, so that's why I took IELTS on a computer. The test was otherwise the same."

Tom, Germany

*In the Listening test on computer, the timings are slightly different from the Listening test on paper. This is because the paper-based test requires users to transfer answers to an answer sheet. This step becomes redundant when answering directly on a computer.
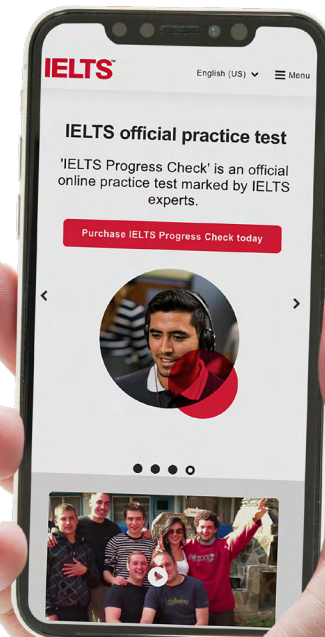

- Before the start of each part of the Listening test, you will have some time to read the questions.
- After the end of each part of the Listening test, you will have some time to review your answers.
- At the end of the Listening test, you will have 2 minutes to check your answers.

The timing of the Listening test is between 30 – 34 minutes.
